Subject: Overtime hours not being paid correctly

Hi Renee,

I wanted to raise a concern and report something I have noticed over the last two months. I have consistently been working more than 45 hours most weeks — often staying until 6 or 6:30 PM to finish pallet counts — but my paychecks only show straight-time pay for all of those hours. I have not received any overtime pay at the time-and-a-half rate for the hours over 40.

I raised this informally with my supervisor, Tom Alvarez, a few weeks ago, but nothing changed on my last two paychecks, so I wanted to put this in writing and report it directly to HR. I do not think this is right and I would like it corrected.

Can we set up a time to go over my timecards together?

Thank you,
Marcus Delgado
