Rosa Delgado - Server / Shift Lead - Golden Coast Bistro - Jun 2023 to Apr 2026 - 5 records

1. Review Snapshot

Rosa reports working for Golden Coast Bistro. The record set includes an HR complaint, a written warning, a termination letter and final paystub.

2. Why This Intake Requires Review

Records document a sequence: a pay/overtime complaint, a written warning nine days later, then termination for "performance." Firm review is needed to determine whether these events are related.

2B. Extracted From Documents

Confirmed from documents: base rate \$18.00/hr; timecard 96 hrs vs 80 paid; coworker confirms busy dinner shifts. Timing from complaint: warning +9 days; termination +35 days. Key document language: "...no overtime rate was applied..." (dense facts + quotes).

3. Intake Overview

Employer: Golden Coast Bistro. Employment: Jun 2023 - Apr 2026. Role: Server / Shift Lead. Separation: termination, Apr 8 2026. (label:value fields)

4. Sequence for Attorney Review

Mar 4 - HR complaint filed. Mar 13 - Written warning (9 days later). Apr 8 - Termination ("performance"). (chronology table)

5. Priority Questions

Was overtime ever paid? Were meal breaks provided? Prior discipline history? (bulleted questions)

6. Supporting Records

HR complaint, February pay stub, written warning, termination letter, worker statement. (document list)

7. Documented vs. Worker-Reported

Documented: complaint, warning, termination dates. Worker-reported: unpaid OT across multiple weeks. (provenance table)

8. Items Requiring Confirmation

Total weeks with overtime; meal-break count. (bullets)

8B. Wage Exposure Estimate

<-- DAMAGES is buried here (approx. page 3)

Records-based estimate: overtime premium calculated from the pay records provided - arithmetic from records, not a valuation.

9. Questions That May Help Complete the Intake

Do you have additional pay stubs? (bullets)

10. Worker Context

"I worked at Golden Coast Bistro for almost three years... after I raised the pay issue, I got a written warning for the first time in three years, then a month later they let me go..." (full verbatim narrative - the longest section)

11. Firm Review Options

Items to confirm, priority records available. (counts)

The problem: the attorney must ASSEMBLE the verdict from pieces spread top to bottom.

Claim, timing, and damages are in different places - and damages is near the end. That is "a lot to read."
